Blinds Shutters Awnings

Window & Conservatory Blinds

Awnings & Plantation Shutters

Stylish Solutions Designed by Experts for you

Roman Blinds

Classic designs in luxurious fabrics will add warmth and sophistication to any living space. Hand-made and fully lined from a stunning collection of fabrics. Be inspired to create that unique look.

Plantation Shutters

An iconic interior design feature at the pinnacle of today's contemporary style. Complete range for every window, door, partition and for every budget. Bespoke manufacture using the finest raw materials giving you a versatile and attractive solution. The perfect investment to add value to your home.

Awnings & Canopies

Make the most of your garden and outside space with our complete choice of awnings, canopies & umbrellas. Ideal for domestic & commercial projects. Vast selection of fabrics fully protected and waterproofed. Available as manual or motorised remote control. Signage also available.

Perfect-Fit

Award winning product featuring a unique no drill, no screw installation system. Available for Venetian, Pleated, Roller & Wooden Venetian blinds.

Venetian Blinds

Choose wood for a classic look or aluminium for a more contemporary style. Choice of colours, designs & slat widths.

Pleated Blinds

Bespoke shading solutions for the most complex of shapes. We are conservatory blind experts. All our blinds are made by hand in the UK. Using specifically designed technically advanced fabrics keeps you cool in the summer and saves energy in the winter.

Woodweave

Natural pinoleum woodweaves in an indulgent range of designs and colours. A highly decorative solution to both shade and decorate your conservatory. Creating a gentle and relaxing ambiance.

Luxurious Fabrics

Roller Blinds

For your windows and your conservatory. Roller Blinds give a very neat and contemporary look. Choose from a vast range of fabrics and with additional trims, finishes and control options there is a style to fit any application. Blinds are also available in the same technically advanced fabrics as the pleated range and are therefore a great choice for solar control.
